The day before your next office visit please download your pump at home.

HOW TO DOWNLOAD YOUR PUMP or SENSOR

DEXCOM

If you are using the Dexcom G6 mobile app, please follow this link to [Download the Dexcom Clarity app | Dexcom](#)

If you are using the Dexcom Reciever, please make an account for Dexcom Clarity and upload the device using your green cord to the computer where you are logged in.

MEDTRONIC

You can go to Carelink and log in at www.carelink.minimed.com

If you have not done this before please look for support at
   https://www.medtronicdiabetes.com/customer-support/carelink-software-support/installing-and-uploading

If you need assistance please contact the Medtronic Diabetes Representative.

OMNIPOD

You must have a podder central account as well as a glooko account. If you have the omnipod5 device. Please go to [Setup | Omnipod](#)

You must use [LogbookWeb (glooko.com)](#) and sync your personal account to our clinical account with ProConnect Code **marybridge** . You can update this information in your account settings.

If you need assistance please contact the Omnipod Diabetes Representative Noah at 360-388-6294

T-SLIM

You can go to [t:connect Mobile App | Tandem Diabetes Care](#) and verify that you are logged in and that you have swiped down on your data to update it. Keep the app running in the background at all times to allow for it to update every night at midnight making it easier for us to view at your doctor's appointments or when reviewing diabetes data by phone.

If you need assistance please contact the Tandem Diabetes Rep at 206 861-6504
